Sam Walton:

Founder of Wal-Mart

Opportunist who wanted to imitate the environment of the concentration camps that he oversaw as a worker at the end of WWII

He was dedicated, and was a student of the Third Reich

He knew more of the plans of the concentration camps than most even knew

It was all apart of a cruel hoax.....

"A Walmart would make a perfect FEMA detention facility ...See ya in the camps!"

FEMA, JADE HELM, U.S. DEPARTMENT OF HOMELAND SECURITY

Eventually each store will be cleared of merchandise and guillotine, and marking devices will be installed

Each store will be used to store the citizens after the 6th seal is broken

after the peace treaty is signed dividing Israel there will be global earth quakes, catastrophe after catastrophe

The government will encourage people to go to their local Wal-Mart to receive public assistance

Just as Hitler did during his reign of terror

Whatever he spoke became the law..

This is the way they will bring civil obedience

they will instruct us to head to Wal-Mart where we have been shopping

They will tell us that the resources we need will be in each and every store

It will be a limited amount of resources and with a price to pay for receiving their assistance

They will encourage us to receive a mark on our right hand or forehead in order to be placed into their system (RFID Chip Implant)

There will be great civil unrest

This is only the beginning

What you are hearing (below link) is the Covenant of the Illuminati. the 13 blood lines that control all of the secret Societies

MIND.

-It's not just Walmart!-

It's other mainstream stores and private companies as well! All part of the same nefarious agenda...

And just what is that nefarious agenda? Why all the SUDDEN store closings and job layoffs?

WHEN a State of Emergency is nationally declared, martial law will be "unofficially" enforced, whether that be due to an EMP, more man-

made "natural" disasters, potential pandemic, a nationwide grid shutdown, nationwide banking glitch/"virus," or any combination thereof.

When this is the case, the Government's forced solution to their controlled, caused demolition(s) and problem(s) will be to round up

"political dissidents" -- or who they deem "domestic terrorists" -- into detention camps: also known as FEMA Camps. For the sake of "national security."

These FEMA Camps are located nationwide -- with well over 800 of them functioned, fully furnished, and highly secured. But don't be fooled!

These "camps" are also being built under disguises, and are planned to be functioned in areas such as abandoned malls/warehouses, shopping centers, and Government-run entities such as schools, libraries, post offices, and even military bases.

However, locations will also include places such as Walmart. There is even evidence showing the building and funding of underground tunnels, which will connect these Walmarts and stores alike to underground military bases and FEMA Camps, in preparation for mass-evacuation come martial law. Chances are, when martial law IS declared and emergencies DO occur, Walmart may be one of the only stores available "for your shopping needs."

REMEMBER ... "Wal - Mart" ... read the first 3 letters backwards and you get "LAW" ... add "ial" to "Mart," and you get "Martial" ... put em together and you get "Martial Law" ...

PREPARE SPIRITUALLY! NOW IS THE TIME!!! SEEK YAHUAH AND HIS SON YAHUSHA -- THAT ALL MAY BE WELL WITH YOU, AND THAT YOU MAY BE PROTECTED IN THESE LAST DAYS!!!

FEMA Death Camps, The Rex 84 Program, Operation Cable Splicer and Operation Garden Plot
Obama's Revolutionary Take-over

30,000 Guillotines purchased by the US Government, 600 Million rounds of hollow point bullets, Black Racists and Muslims hired by All Government Agencies to indoctrinate the masses and with the calaberation of "Self Hating Whites" to run the re-education Camps. You think the Nazi Death Camps were a Horrible Nightmare, wait till you find out what Obama's FEMA have in store for the American People, primarily those who are white and are considered his political enemies. Right under your very noses and with the naieve approval of Congress. Yes the same Congress who has an all too familiar habbit of rubberstamping anything Obama wants. Yes the same Congress who perhaps were deceived or simply not paying attention or as in the past, "did not have time to read the massive amount of pages of the bills they sign. What they have allowed to be created is truly what Nightmares are made of. It makes the entire Nazis death camps of history appear to be pleasure resorts and Hitler to be a simple childhood prankster. The astonishing thing is people still believe, "It can't happen here" and so they refuse to believe that it already is happening right now". - Randal M. Bundy - 07 March 2015

And we must not forget that the US Government has purchased 30,000 Guillotines and over 600 Million rounds of hollow point bullets?

This following video shows FEMA agents, hired by Obama, and obviously indictrinating new recruits that our founding fathers were "the first terrorists". Do you remember the old news reports of Vietnamese Re-education Camps? The American Re-education Camps are active right now in the United States and Obama's Government are staffed with those who will willingly slaughter millions of their own Fellow American citizens for no other reason that they might be Republicans, Conservatives, Tea Party Members, Patriots or Malitia Members. Think it can't happen here? It

already is happening right now! Even though the Republican Party has the majority in both houses of Congress their leadership has been nudered through black mail and threats to their family members as well as themselves. Even though the Supreme Court is also a seperate and equal branch of Government, they too have either been infiltrated by Obama's leftist sympathisers or they too are in fear of harm to their own family members.

The U.S. government, under a program called REX 84, runs approximately 3,708 detention camps nationwide. They are all fully operational and ready to recieve prisoners should the US government institute matial law.

The Rex 84 Program was initially established as a way to deal with a mass exodus of illegal aliens crossing the Mexican/US border, they would be quickly rounded up and detained in detention centers by FEMA (Federal Emergency Management Agency). Rex 84 allowed many military bases to be closed down and to be turned into prisons.

Operation Cable Splicer and Garden Plot are the two sub programs which will be implemented once the Rex 84 program is initiated for its proper purpose. Garden Plot is the program to control the population. Cable Splicer is the program for an orderly takeover of the state and local governments by the federal government. FEMA is the executive arm of the coming police state and thus will head up all operations. The Presidential Executive Orders already listed on the Federal Register also are part of the legal framework for this operation.

The camps all have railroad facilities as well as roads leading to and from the detention facilities. Many also have an airport nearby. The majority of the camps can house a population of 20,000 prisoners. Currently, the largest of these facilities is just outside of Fairbanks, Alaska. The Alaskan facility is a massive mental health facility and can hold approximately 2 million people.

INFO ON ONE MILLION FEMA COFFINS:

For an aerial view of these FEMA coffins, look it up in google maps (maps.google.com) or google earth by pasting in the following coordinates:

33°33'57.36"N 83°29'6.26"W

This facility is located off Lions Club Road in Madison, GA. They allegedly will not answer inquiries about the purported use of the boxes.

These coffins are stacked on pallets, upside down on each other (about 17 per pallet). Apparently the Government is expecting a million people to die relatively soon, and the Atlanta Airport is a major airline traffic hub, probably the biggest in the country, which means Georgia is a prime base to conduct military operations and coordination. It is also the home of the CDC, the Center for Disease Control. One million plastic coffins "just in case something happens". When has our government every been so efficient?

There are over 3,700 FEMA (Federal Emergency Management Agency) camps over the United States all fully staffed and operational, just waiting to take in the noncompliant population under the appropriate circumstances.

perspective – Ft. Irwin is a FEMA facility near Barstow. This base is designated inactive but has staffed camp. The surrounding support from

Edwards AFB, George AFB, and MCLB Barstow would indicate this is a high importance facility.

MCLB Barstow has an interesting mark on its

helicopter pad, which looks suspiciously like an Iron Cross. Check it out. Another view. Irwin is a remote mountain region south of Death

Valley National Monument. Designated as inactive, there is a camp at this facility approx. 30 miles from I-15 in Barstow.

Depot facility (down from 5,000 in August 1995) and in February 1998 there were 3,100 employees, in October 1998 3,400 employees. This

reminiscent of the masonic symbol. To the east of the field, is an odd symbology on the ground.

Noticeable also is a fleet of black cars in the

Marseilles – Located on the Illinois River off Interstate 80 on Hwy 6. It is a relatively small facility with a cap of 1400 prisoners. Though it is small it is designed like prison facilities with barred windows, but the real smoking gun is the presence of military vehicles. Being located on the Illinois River it is possible that prisoners will be brought in by water as well as by road and air. This facility is approximately 75 miles west of Chicago. National Guard training area nearby.

Scott AFB – Barbed wire prisoner enclosure reported to exist just off-base. More info needed, as another facility on-base is believed to exist.

large facility contains large 3-4 inch gas mains to large furnaces (crematoria??), helicopter landing pads, railheads for prisoners,

Red/Blue/Green zones for classifying/processing incoming personnel, one-way turnstiles, barracks, towers, high fences with razor wire, etc.

video above) This site is located next to a closed refrigeration plant facility.

still ideally converted to hold detainees. Helicopter landing areas still exist for prisoners to be brought in by air, land & rail.

of 3,000 people a day. FEMA designated facility located here.

Fort Wayne – This city located in Northeast Indiana has a FEMA designated detention facility, accessible by air, road and nearby rail.

Kingsbury – This “closed” military base is adjacent to a state fish & wildlife preserve. Part of the base is converted to an industrial park, but the southern portion of this property is still used. It is bordered on the south by railroad, and is staffed with some foreign-speaking UN troops. A local police officer who was hunting and camping close to the base in the game preserve was accosted, roughed up, and warned by the English-speaking unit commander to stay away from the area. It was suggested to the officer that the welfare of his family would depend on his “silence”. Located just southeast of LaPorte.

Jasper-Pulaski Wildlife Area – Youth Corrections farm located here. Facility is “closed”, but is still staffed and being “renovated”. Total capacity unknown.

Grissom AFB – This closed airbase still handles a lot of traffic, and has a “state-owned” prison compound on the southern part of the facility.

UNICOR

Jefferson Proving Ground – Southern Indiana – This facility was an active base with test firing occurring daily. Portions of the base have been opened to create an industrial park, but other areas are still highly restricted. A camp is located “downrange”. OTHER LOCATIONS IN THE UNITED STATES

There are many other locations not listed above that are worthy of consideration as a possible detention camp site, but due to space

limitations and the time needed to verify, could not be included here. Virtually all military reservations, posts, bases, stations, & depots can

be considered highly suspect (because it is “federal” land). Also fitting this category are “Regional Airports” and “International Airports”

which also fall under federal jurisdiction and have limited-access areas. Mental hospitals, closed hospitals & nursing homes, closed military

bases, wildlife refuges, state prisons, toxic waste dumps, hotels and other areas all have varying degrees of potential for being a detention

camp area. The likelihood of a site being suspect increases with transportation access to the site, including airports/airstrips, railheads,

navigable waterways & ports, interstate and US highways. Some facilities are “disguised” as industrial or commercial properties,

camouflaged or even wholly contained inside large buildings (Indianapolis) or factories. Many inner-city buildings left vacant during the de-

industrialization of America have been quietly acquired and held, sometimes retrofitted for their new uses.

CANADA

Our Canadian friends tell us that virtually all Canadian military bases, especially those north of the 50th Parallel, are all set up with

concentration camps. Not even half of these can be listed, but here are a few sites with the massive land space to handle any population:

Suffield CFB – just north of Medicine Hat, less than 60 miles from the USA.

Primrose Lake Air Range – 70 miles northeast of Edmonton.

Wainwright CFB – halfway between Medicine Hat and Primrose Lake.

Ft. Nelson – Northernmost point on the BC Railway line.

Ft. McPherson – Very cold territory ~ NW Territories.

Ft. Providence – Located on Great Slave Lake.

Halifax – Nova Scotia – Dept. of National Defense reserve.... And others.

OVERSEAS LOCATIONS

Guayanabo, Puerto Rico – Federal prison camp facility. Capacity unknown.

Guantanamo Bay, Cuba – US Marine Corps Base – Presently home to 30,000 Mariel Cubans and 40,000 Albanians. Total capacity unknown.

List Of D.U.M.B (Deep Underground Military Bases)

I present the culmination of work which took place from 2002 through 2009. It took great effort under conditions of grave danger to make this possible. Truckers, hauling military and government shipments had to be recruited and convinced to take part in this infiltration operation. Military officers inside the United States Military Traffic Management Command (MTMC) as well as at bases and supply depots nationwide had to be convinced to help the infiltration. Special Agents inside the FBI and later, members of the Joint Terrorism Task force had to be recruited or co-opted or manipulated into this effort. Construction workers, risking their livelihoods and their lives, had to be brought over to this endeavor. Military members inside places like NORAD had to be convinced to turn a blind eye to illegal photo taking so we could prove that the American public could even breach the single most secure military facility in the nation. We did. All totaled, it was an enormous and extremely dangerous affair. Below is an 8 minute video which will blow your mind. In it you will see that the United States government has been planning for its own survival if you, me and other citizens got too uppity and try to get rid of them. These facilities would also serve to protect the government in case they decided there were too many people and the population had to be "culled" through the use of a bio-weapon -- as has now happened with the man-made super flu having now been unleashed upon the world. In this video, you will see vast underground facilities, bigger than football stadiums - some buried more than two thousand feet below the surface, fully stocked with food, artificial underground farms, re-directed underground rivers, miles and miles of underground roads large enough for two tractor trailers traveling in opposite directions to pass each other with room to spare! These facilities have vast underground mass-transit systems connecting them to one another. The facilities are fully self-sufficient, generating their own electric, possessing air filtration systems, water purification systems, and vast supplies of guns and ammunition. So gigantic are some of these facilities, that full sized U.S. Navy guided missile cruisers, destroyers and even nuclear submarines can approach secret ocean entry points, slide gently onto massive rails, and be gently transported over a hundred miles under dry land, through gigantic tunnels to half a mile underground, or coming to rest in water-filled underground "docks." The planning and sophistication of these government bases is almost unfathomable, but they exist.

The government refers to these facilities as DUMBS -- Deep Underground Military Bases & Structures. They chose that name because it also allows them to mock YOU. They really thought they could do all this in secret and that we were to "DUMB" to ever figure it out. Turns out we're not so DUMB after all. We figured it out then we went about infiltrating them without their knowledge to allow everyone to see the proof. The smart-asses of government have been outmaneuvered and outclassed by us "little people."

Ladies and Gentlemen, people died to smuggle some of these pictures out. The government stopped at nothing to conceal the fact it is planning to protect itself while it slaughters us with bio-weapons to form their new, Utopian "New World Order." They failed. We know about it. We have the proof.

It's strange how life works. When I was interviewed by "CNN Special Investigation Unit" for their special "The Noose, An American Nightmare" that interview took three hours. The segment they did on me was only 6 minutes long and of that, I appeared for maybe two minutes. Three hour interview for two minutes of audio/video.

The video done below took just over six years to acquire. No, not all the time of those years was working on this story, but the effort was ongoing for that long. The six years have now been condensed down to an eight minute video.

Here now, the most important 8 minutes of my life.
